1. On 7 and 8 July 1953, each between 150 and 200 KVPs armed with infantry weapons and carrying baggage were loaded at the Schwerin railroad station, coming from the Alte Grenadier Kaserne. A railroadman stated that the train would go in the direction of Saxony.

2. On 11 July 1953, the Alte Grenadier Kaserne was only lightly occupied by an estimated 200 KVPs who had red collar patches.

25X1A [REDACTED] Comment. The installation mentioned quarters the headquarters of TV 5000 with subordinate engineer battalion commanded by Senior Lieutenant Jaensch (fmu) and signal battalion commanded by Captain Storm (fmu). It is believed that, on 7 and 8 July, elements of these two battalions were transferred for the execution of training programs and that, on 11 July, rear details of these units and the headquarters of TV 5000 were still in Schwerin.
